## Deposition of Terry Marquardt - 8/16/2018 League of Women Voters of Michigan v. Ruth Johnson, the Secretary of the State of Michigan

	Page 106		Page 108
1	Q. Why weren't the senators shown the whole	1	created for that meeting with
2	map? Why are they just shown their	2	Senator Colbeck.
3	district?	3	Were any changes made to this
4	A. I don't I don't know if I really have an	4	district that you recall after?
5	answer for that. I mean, they're more	5	A. No.
6	interested in their district. I don't think	6	Q. In this meeting with Senator Colbeck and the
7	a lot of them had an interest in the in	7	others who were there, did you discuss this
8	the domino effect of how it affected	8	partisan data that's on the map?
9	everything else. They are more focused on	9	MR. GORDON: I'll object. You're
10	their own districts.	10	getting into the legislative privilege area
11	Q. Is that something that you decided that they	11	as to what was said. He's a key staffer for
12	were only going to get this document or did	12	the Speaker of the House and the key map
13	someone else make that decision?	13	drawer, and I think he would be considered
14	A. I don't recall at the time how decisions	14	the key staffer from the Republican caucus.
15	were made.	15	MS. MAPPES: Well, we can pull it
16	Q. And who was the senator for this particular	16	back out and make sure we're on the right
17	district?	17	side of the line, but I think the Court's
18	A. This district actually was Senator Colbeck.	18	Order on the legislative privilege allows
19	Q. You said a minute ago that the changes to	19	for questions that go to whether there was
20	this district were quite significant?	20	partisan intent in the factual the
21	A. Um-hmm.	21	underlying factual materials.
22	Q. Can you talk me through why these changes	22	MR. HUGHES: Can we go off the
23	were made, because I mean, I agree, just	23	record?
24	from looking at it, it looks very different	24	MS. MAPPES: Sure.
25	and then close to 60 percent totally	25	(Discussion off the record.)
	Page 107

2 3 4 5 6	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.	2 3 4 5 6	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")
2 3 4 5 6 7	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on	2 3 4 5 6 7	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall
2 3 4 5 6 7 8	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010	2 3 4 5 6 7 8	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically.
2 3 4 5 6 7 8	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out	2 3 4 5 6 7 8 9 10	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?
2 3 4 5 6 7 8 9 10 11 12	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that	2 3 4 5 6 7 8 9	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No.
2 3 4 5 6 7 8 9 10 11 12	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities,	2 3 4 5 6 7 8 9 10 11 12	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all
2 3 4 5 6 7 8 9 10 11 12 13	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was	2 3 4 5 6 7 8 9 10 11 12 13	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?
2 3 4 5 6 7 8 9 10 11 12 13 14 15	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up	2 3 4 5 6 7 8 9 10 11 12 13 14	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't. Q. Did you take any notes at any of these
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.  Q. You said "we," but do you really mean you?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't. Q. Did you take any notes at any of these meetings?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.  Q. You said "we," but do you really mean you?  A. I was probably the driving force.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't. Q. Did you take any notes at any of these meetings?  A. No. I was kind of busy presenting so I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.  Q. You said "we," but do you really mean you?  A. I was probably the driving force.  Obviously, I didn't get to make, you know,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't. Q. Did you take any notes at any of these meetings?  A. No. I was kind of busy presenting so I really didn't have time to take notes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.  Q. You said "we," but do you really mean you?  A. I was probably the driving force.  Obviously, I didn't get to make, you know, the final call on everything but	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't. Q. Did you take any notes at any of these meetings?  A. No. I was kind of busy presenting so I really didn't have time to take notes. Q. What did you present?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.  Q. You said "we," but do you really mean you?  A. I was probably the driving force.  Obviously, I didn't get to make, you know, the final call on everything but  Q. Who was making the final call?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't. Q. Did you take any notes at any of these meetings?  A. No. I was kind of busy presenting so I really didn't have time to take notes. Q. What did you present?  A. Just basically the map and kind of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.  Q. You said "we," but do you really mean you?  A. I was probably the driving force.  Obviously, I didn't get to make, you know, the final call on everything but  Q. Who was making the final call?  A. Well, Senator Richardville was not	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't. Q. Did you take any notes at any of these meetings?  A. No. I was kind of busy presenting so I really didn't have time to take notes. Q. What did you present?  A. Just basically the map and kind of explained, you know, basically what I went
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.  Q. You said "we," but do you really mean you?  A. I was probably the driving force.  Obviously, I didn't get to make, you know, the final call on everything but  Q. Who was making the final call?  A. Well, Senator Richardville was not particularly involved in the details but he	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. Do you recall any discussion of how this district would perform?  A. No. Q. Do you recall anything in particular at all that was discussed at this meeting?  A. Not at this no, I don't. Q. Did you take any notes at any of these meetings?  A. No. I was kind of busy presenting so I really didn't have time to take notes. Q. What did you present?  A. Just basically the map and kind of explained, you know, basically what I went through with you, you know, what all this
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	different population so  A. Right. Well, as you can tell, the one on the right is much more compact and I think that's what drove the changes more. I mean, there were obviously a lot of population changes.  As you can see if you look back on the left again, the current district 2010 population, that second number down there, that 319,000 number, that's how much that district grew. Obviously that was far out of the deviation range, so the district had to get smaller and lose some municipalities, and so, you know, the configuration that was kind of the most compact is what we came up with there.  Q. You said "we," but do you really mean you?  A. I was probably the driving force.  Obviously, I didn't get to make, you know, the final call on everything but  Q. Who was making the final call?  A. Well, Senator Richardville was not	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	(Question read back as requested as follows:  "Q. In this meeting with Senator Colbeck and the others who were there, did you discuss this partisan data that's on the map?")  THE WITNESS: I don't recall specifically. BY MS. MAPPES: Q. 1	you and I haven't covered about what's on	1	A. It's down the list on the criteria but it
2	this document?	2	is it is in the criteria. It's probably
3	A. No, not that I recall.	3	the one criteria that's the most complicated
4	Q. Where in this district does Senator Colbeck	4	because there's like a geometric formula
5	live?	5	kind of and yeah.
6	A. I believe that he lives in Canton Township.	6	I think when we look at something,
7	Q. Where oh, that's over there on the	7	we kind of know what's compact and what
8	A. Which is, yeah, the I can point at it	8	isn't, so this one is pretty easy to detect.
9	better than I can I'm sorry.	9	Q. Do you use that formula to check whether
10	Q. On the left side, kind of the third one	10	your districts are compact?
11	down?	11	A. There was a way to do that on the computer.
12	A. Correct.	12	It was down the criteria list quite a ways,
13	Q. Okay.	13	so we didn't it was more driven by
14	A. Third square or third shape.	14	population and but again, compactness is
15	Q. It says it on there, it's just hard to read.	15	kind of obvious when you look at a district
16	A. Yeah.	16	rather than the one from 10 years prior.
17	Q. And was there any other incumbent that lived	17	Q. Do you consider this district competitive?
18	in this district?	18	A. This is a changing district and so I would
19	A. No.	19	consider it competitive, yes.
20	Q. Did you have any expectation of who the	20	Q. What do you mean by it's a "changing
21	Democrat would be that would run in this	21	district"?
22	district at the time?	22	A. It's just it's become more competitive
23	A. I did not. We were quite a ways away from	23	over time. I think at one point in time,
24	election at that point, almost three years,	24	that portion of Wayne County was considered,
25	so three and a half years.	25	you know, fairly Republican. I don't think
	Page 111		Page 113
1	_	1	ŭ
1 2	Q. That makes sense. Every once in awhile you	1 2	that's necessarily the case any longer. I
	Q. That makes sense. Every once in awhile you might have some idea of that.		that's necessarily the case any longer. I mean, through demographic changes, districts
2	Q. That makes sense. Every once in awhile you	2	that's necessarily the case any longer. I
2	Q. That makes sense. Every once in awhile you might have some idea of that.  Was this in your view the only way to draw this district or was there some	2	that's necessarily the case any longer. I mean, through demographic changes, districts change over time, particularly, I think, in the Detroit metro area districts have
